

بحوث قسم المكنائن والمعدات

1- استاذ كريم جعفر علوان

1-void fraction and submergence ratio effect on a bobble pump performance.

المؤتمر العلمي الاول للكلية التقنية الهندسية –النجف. اذار 2008.289-302 pp

2-A comparison Between Theoretical and Experimental Study of Natural Circulation Analysis in a percolator system. AL-Kufa Journal 2007,Vol.8,No.2

3-ON SOLUTION OF HESSANI MATRAIX EQUATION

قبول نشر في مجلة التقني العدد1009 في 24-6-2001 .

4- التأثيرات السلبية لاستعمال منظومات التبريد الحديثة على زيادة الرطوبة داخل الابنية الحديثة

4-ADVERS EFFECTS OF MODERN AIR CONDITIONING SYSTEMS ON INCREASING THE RELATIVE HUMIDITY IN HERITAGE BUILDINGS. The Iraqi journal for mechanical and material engineering , special volume Babylon First International Engineering Conference Issue (A) pp169-181.

2- د. عادل عبد عزيز
